AF11-COMPLETE-HB-EU - AirFiber Full-Duplex 11 GHz Radio System wit High Band Support

from **1.523,86 EUR**

Item no.: AF11-COMPLETE-HB
shipping weight: 24.00 kg
Manufacturer: Ubiquiti

Product Description

AF11-Complete-HB - AirFiber Full-Duplex 11 GHz Radio System wit High Band Support

airFiber 11 is the first modular airFiber radio system purpose-built for the 11 GHz licensed frequency market that breaks free from the congested 5 GHz band. Housed in a compact, highly efficient form factor, airFiber 11 delivers amazing wireless Gigabit+ performance, low latency, and long range, making it ideal for carrier backhaul, building-to-building enterprise use, or public safety applications. [Features](#)

- Full duplex point-to-point radio
- 11 GHz frequency operation
- Up to 1.2+ Gbps throughput
- Includes one high-band duplexer for SISO mode (MIMO mode requires an optional second duplexer)
- Integrates with AF-11G35 11 GHz antenna
- Supports separate TX/RX frequencies
- Accepts PoE or DC power

Includes:

- (1) AF-11FX radio
- (1) AF-5G35 antenna
- (1) AF-11FX-DUP-H duplexer

2 kits are needed to make a link.
