Product Description

W79P - Professional Ruggedized DECT IP Phone System

For certain environments with special demands or challenges, a robust and ruggedized DECT phone system can be rather important and inevitable to enable flexible mobile communication throughout the spaces. With the reliable IP67 certified handset W59R and enhanced DECT station, the Yealink W79P works as an ideal solution to offer supreme cordless telephony experience for workers in challenging workplaces such as factories, warehouses, construction sites, etc.

Designed to be an ideal cordless phone system in complicated environments, Yealink W79P is equipped with professional hardware, sophisticated acoustic technology and enhanced computing capacity, to deliver interruption-free and flexible mobile communication experience.

Facing the challenges like potential noise and risks in spaces such as warehouses, factories and hospitals, the W79P is reliable and effective with industry-leading network and signal performance, exceptional audio clarity and remarkable power efficiency.

- Up to 10 DECT cordless handsets and 10 SIP accounts
- Up to 20 simultaneous calls to ensure that each handset can make two calls
- DECT radio coverage up to 50 m indoors and 300 m outdoors
- Energy-saving ECO features
- Built-in Bluetooth and vibration alarm
