

Item no.: 277196

High-speed WLAN antenna set, 2x 5 dBi, 2.4 GHz, RP-TNC connection

from **16,36 EUR**

Item no.: 277196
shipping weight: 0.10 kg
Manufacturer: VARIA Group

Product Description

Highspeed WLAN antenna set, 2x 5 dBi, 2.4 GHz, RP-TNC connection With these antennas you can increase both the strength of outgoing signals and the reception sensitivity for incoming signals. The greater signal strength and increased receive sensitivity improve the reliability of short-range communications by receiving signals clearly and distinctly, reducing retransmissions due to poor signal reception. The high-performance antennas are particularly suitable for wireless networks in businesses and homes, as they can receive strong signals even in remote and hard-to-reach areas. They are also ideal for large areas such as warehouses, public places, wireless hotspots and outdoor places - anywhere you need a larger reception area for your wireless network. Features: - amplifies the radio signal of your wireless devices (2.4 GHz) - omni-directional operation (reception in a 360-degree range) - easy to install, no configuration required

- Signal gain: 5 dBi- Frequency range: 2.4 GHz - 2.5 GHz- Voltage Standing Wave Ratio (VSWR): - Polarisation: Linear/Vertical- Direction: Omnidirectional- Nominal Resistance: 50 Ohm- Connector: RP-TNC- Dimensions: 12 mm x 198 mm- Weight: 32 g- Colour: black- Operating Temperature: -20 °C to 60 °C- Storage Temperature: -30 °C to 75 °C- Operating Humidity: 0 % to 85 % (non-condensing)
