

Item no.: 277323

Professional Highspeed WLAN Antenna Set, 5 dBi, RP-SMA Connector

from **20,52 EUR**

Item no.: 277323
shipping weight: 0.10 kg
Manufacturer: VARIA Group

Product Description

Professional Highspeed WLAN Antenna Set for 802.11b/g, Indoor, 2-Pack Extend the Range of Your Wireless Network With these antennas you can improve the power of the outgoing signal and enhance the receiver sensitivity for incoming signals of your wireless devices. They will increase the reliability of any short-range communication, since the received signal will be clear and stable, which will reduce time-consuming retransmissions because of weak signal strength. These high-performance antennas are particularly suitable for setting up wireless networks in companies and at home. You will be able to provide even remote and hard-to-reach locations with a strong signal. The antennas are also ideal for large area applications like storage facilities, wireless hotspots and public spaces in general - everywhere you would like to increase the range of your wireless network. Features:

- Enhances the signal of your wireless devices (2.4 GHz)
- Omnidirectional (receives in an area of 360 degrees)
- Easy installation, no configuration necessary

Compatible with all WLAN devices that provide a RP-SMA connector. Please ensure that your WLAN device has a compatible connector RP-SMA (Reverse Polarity SMA). The RP-SMA standard is used by nearly 90% of all WLAN device manufacturers.

- Signal enhancement: 5 dBi
- Frequency: 2.4 GHz - 2.5 GHz
- Voltage standing wave ratio (VSWR):
- Polarisation: linear/vertical
- Direction: omnidirectional
- Resistance: 50 Ohm
- Connector: RP-SMA
- Measurements: 12 mm x 198 mm
- Weight: 28 g
- Color: black
- Operating temperature: -20 °C up to 60 °C
- Storage temperature: -30 °C up to 75 °C
- Operating humidity: 0 % to 85 % (not condensing)
