Product Description

WiBOX PA 24-15 - Directional Panel Antenna, 2300 - 2487 MHzPA 24-15 is a panel antenna operating at the frequency of 2.4 GHz with 15 dBi gain. It is designed for Point-to-Point connections and Point-to-Multipoint connections as a client antenna. The antenna isintegrated with the top quality WiBOX Medium box system (theinstallation space is 25 x 25 x 5 cm). The box has IP67 waterprooflevel, there is enough room to install almost any of the most popularradio equipmenty. WiBOX Medium offers the possibility to integrate theantenna system with other systems by using the additional connectorholes. WiBOX Medium is made from durable plastic material, which isresistant to UV radiation and bad weather conditions. The specialreinforced WilMount bracket made from fiberglass ensures the stabilityeven in case of strong winds. PA 24-15 can be mounted for vertical orhorizontal polarization.

Features

- 15 dBi directional gain
 Outdoor waterproof WiBOX Medium
 Big and convenient WiBOX Medium for radio equipment installation
- RJ45 waterproof system
- Adjustable tilt pole mount WiMount
 Horizontal or vertical polarization
- High-quality construction
- SMA female connector
- DC grounded for lightning protection
 WiMount heavy-duty mounting elements
 Designed for all weather operation

Applications

- 2.4 GHz band Wireless LAN
- IEEE 802.11b/g WLAN systems
 Point to Point applications
- Client antennas
- System integration
- WIMAX
