Product Description

The modern mono over-ear headsetThe first fully-fledged over-ear headset from Snom (Snom A330D)Speakers with full-band audio and a microphone with passive background noise cancellation. This means you can now "concentrate fully on the call". Because ambient noise is reliably suppressed. The replaceable ear cushion is made of soft imitation leather with memory foam filling. This means it can be used all day without causing uncomfortable pressure points. The adjustable headband is also padded for long-lasting comfort and is 35 mm long. The headset can be used with a 3.5 mm jack plug or connected to a Snom IP desk phone or computer via USB. This means it can not only be used for making calls, but also works with all current communication software platforms.- Remote control with LED display: The call functions can be easily selected using the remote control in the cable. The LED indicator shows the status of the headset. - 270° bendable and rotatable microphone boom: Simply move the microphone boom to the appropriate position, e.g. when drinking from the mouth area. Dimensions and weight- Dimensions (L x W x H, approx.): Packaging: 200 mm x 200 mm x 80 mm- Cable length (approx.): 2.4 m in total, 1.4 m from the headset to the remote control, 0.95 m from the remote control to the USB port-- Weight (approx.): Headset: 220 g; remote control: 66 g; packaging: 540 gAudio functionHeadset loudspeaker:- Wideband ETSI- Full-band audio- Diameter: 40 mm- Frequency range: 20 Hz - 20.0 kHzMicrophone:- Passive noise cancellation- Frequency range: 100 Hz - 10.0 kHz- Sensitivity: -55 dBPackage contents:- Hardware: Headset A330M; Remote control | USB sound card, Carrying case- Documentation: Quick guide
