25890 - A-ADPT-024-V2 - ADPT-024 Modem to antenna adapter SMA f

from **20,88 EUR**

Item no.: 382619
shipping weight: 0.40 kg
Manufacturer: Poynting

Product Description

The adapter consists of a flat plastic pad with a 50 cm long cable that ends in an SMA plug (socket). The plastic cover, which looks like a mobile phone battery, encloses a device that can be coupled to a mobile phone and forwarded to a booster antenna to provide better reception. The pad of the coupler is attached to the top of the phone. (The coupler is supplied with a small piece of Velcro to ensure a more secure connection to your phone). Then connect the other end of the coupler to one of our booster antennas via the SMA connector (socket). The booster antenna can be mounted on the outside of a building and pointed in the direction of the nearest mobile phone base station to ensure good reception. Specification- Broadband LTE and Wi-Fi antenna- Compatible with 4G, 3G and 2G technologies- Improves the user experience of mobile subscribers- Increased connection stability- Weather and vandal resistant- Used in extreme weather environments- Ports: 1- SISO / MIMO: SISO- Frequency Bands: 698 - 960 MHz, 1710 - 2700 MHz- Polarisation: Linear- Coax Cable Type: RG 174- Coax Cable Length: 0.5m- Connector Type: SMA (F)
