Product Description

Maclean MC-945 short throw projector wall mount. Universal wall mount for projectors of various brands. Professional appearance, quick and easy installation. The holder is ideal for use with short throw projectors. Smooth adjustment of the arm spacing ensures universal installation and the ability to mount virtually any projector available on the market. Adjusting the distance from the wall and the angle of inclination as well as the possibility of rotation allow for optimal projector settings. Adjustable arm spacing ensures compatibility with most projectors and overhead projectors available on the market. The holder is suitable for private use as well as for commercial and professional applications such as presentations, lectures, slide shows in offices and conference rooms.
