135,74 EUR

Item no.: 325453
shipping weight: 0.70 kg
Manufacturer: GSM Activate

Product Description

GSM Activate - 3G Door Contact Alarm

Our GSM Door Contact Alarm system is a standalone alarm system. It is ideal for smaller rooms inside properties. By using GSM technology, when the door contact is broken the unit will send the user a text message and/or phone call to the users mobile phone or landline. Therefore, providing the occupier of the room instant notification when the room has been breached.

The unit is housed in a perfectly weathered box enabling the unit to be installed outside as well as inside. Furthermore, the unit has been tested in high temperatures as well as freezing temperatures.
