XS+85LC01D - 1.25G SFP, 10G SFP+ and 25G SFP28 module

from **49,35 EUR**

Item no.: 387353
shipping weight: 0.10 kg
Manufacturer: MikroTik

Product Description

A cost-effective 1.25G SFP, 10G SFP+ and 25G SFP28 module for shorter distances: up to 100 metres in full-duplex 25 Gigabit mode. Its compatibility with different speeds and affordable price make it a versatile solution for various setups of any size - including bestsellers such as the RB5009, CCR2116, netPower series or a variety of CRS and CSS switches. The module has built-in digital diagnostics such as optical power, transceiver supply voltage, temperature, laser bias current monitoring and other important parameters. These options can be useful not only to alert the user to abnormal transceiver activity, but also when certain customisable operating limits are exceeded. Monitoring allows you to plan ahead, make informed decisions and predict necessary upgrades or maintenance based on transceiver performance. Product specifications- Product code XS+85LC01D- Connector Dual LC UPC- Data rate 1G / 10G / 25G- Distance 100m- Format SFP / SFP+ / SFP28- Mode MM- Tested ambient temperature -40°C to 85°C- Wavelength 850nm
