from **63,31 EUR**

Item no.: 375218
 shipping weight: 0.50 kg
 Manufacturer: Maclean Brackets

Product Description

High-quality docking station that is compatible with laptops, notebooks and tablets equipped with a USB Type-C port. Maclean MCTV-850 expands the device with additional HDMI, USB 3.0, VGA and PD ports as well as an RJ45 internet socket, a 3.5 mm audio socket and SD and micro SD memory card readers. The device can also be used as a laptop stand, which not only saves space on the desk but also improves the cooling of the laptop. You can connect additional devices to the USB ports, e.g. mouse, keyboard, webcam, external hard drive, printer, etc. The USB 3.0 version also enables fast file transfer. SD and micro SD card readers allow you to preview and transfer files quickly. The HDMI video output allows you to connect an additional screen to a monitor, TV or projector. The device enables image transmission in high-resolution 4K (3840x2160 @ 30Hz) in Mirror (duplicated image) and Extended (extended desktop) modes. Thanks to the VGA input, older monitors can also be connected. You can connect the station directly to a wired network socket via the RJ45 LAN connection, which ensures faster and more stable Internet transmission compared to a wireless network.

Specification- Manufacturer: Maclean- Model: MCTV-850- Plug & Play- Aluminium housing- Colour grey- Dimensions: Length: 28 cm / Width 8.5 cm- Cable length: 17.5 cm- Device connection: 1x USB 3.1 type C (male)- System requirements: Windows 7/8/10 or MacOS x10.2 and higher- Compatible with Macbook 2015/2016, Xiaomi Mi Air, DELL XPS 13-9360 and other devices with Type-C interface-
