from **23,28 EUR**

Item no.: 389237
shipping weight: 0.10 kg
Manufacturer: Teledesic

Product Description

Stub box with four connections and two inputs. Equipped with two F connectors at the top: SAT1 on the left side for the satellite signal corresponding to input 1 (filtered) and SAT2 on the right side for the satellite signal corresponding to input 2 (full bandwidth 5 MHz -2200 MHz). The IEC plug for terrestrial TV is located on the bottom left-hand side, the IEC socket for FM (radio) on the bottom right-hand side; both correspond to socket input 1. The lower part and the upper part of the chassis are open. The scope of delivery also includes a white cover plate and a surface-mounted frame. Highlights- Separation filter for terrestrial TV and satellite TV with high suppression rate: - The SAT signal is filtered in the FM TV IEC connections, while the terrestrial FM/TV signal is filtered in the satellite F connection (SAT1).- High shielding- Excellent decoupling between outputs Features- Made of zamak, high strength- DC pass from the two SAT connections to the input- Compatible with coaxial cables with sheath diameters ranging from 4.3 to 6.9 mm (Ø 4.3...6.9 mm)
