ATR-RJ - Transceiver 1000T SFP RJ-45

from **283,56 EUR**

Item no.: 390040
shipping weight: 0.10 kg
Manufacturer: Teledesic

Product Description

SFP (Small Form-Factor Pluggable) 10/100/1000TX module with RJ-45 connector that offers a copper option to extend the network up to 100 metres. Physical data- Net weight 33.00 g- Gross weight 40.00 g- Width 13.00 mm- Height 13.00 mm- Depth 57.00 mm What is a SFP? The Small Form-Factor Pluggable (SFP) devices are adapters that generate an interface to allow access to an Ethernet signal through Optical Fibre. These devices can be connected to the inputs of different Ethernet and GPON equipment, allowing the transmission/reception of the information by connecting to single-mode or multi-mode fibre or Ethernet cables. Among the advantages of using SFP modules, we can highlight the reduction of space, lower energy consumption, or the increase of transmission distances. Which SFP do I need? Based on the devices to which they are connected, the transmission speed, or the type of cable used, several options are available in the whole range of media converters. The compatibility between the SFPs and the different Ethernet and GPON equipment is described below.
