Item no.: 389439

AAUG - Chronos IP receiver for alarm monitoring

from **293,42 EUR**

Item no.: 389439
shipping weight: 0.20 kg
Manufacturer: Televes

📄 Product Description

Alarm monitoring enables the physical integration of Arantia TV with the external alarm systems that deliver the alarm via an open or normally closed volt-free contact.Alarm monitoring can be integrated for any type of alarm that is to be integrated into the system.Highlights- Thanks to the compact design and the position of the connections, easy installation is possible wherever the alarm system is located.- It includes a set of communication systems that make it possible to manage the alarm devices in the network from a central point and to notify the Arantia TV system when the alarm is activated or deactivated.- In the event of an alarm being triggered, the general alarm message defined by the management tool in the middleware alarm system integration software module (art. no. AAUG) is displayed on the end devices. After the alarm has been deactivated, the general alarm message is removed from the screen of the end devices and the main menu of the system is displayed.- RJ45 10/100/1000 Ethernet port- HDMI interface- Triple USB 2.0 and 1 OTG-USB ports- Included is an accessory cable to connect the device to the alarm system- Alarm management software for the specific alarm it is connected to and integration with Arantia TV backend- Compact design- Low power consumption (~5 W)Memory- DDR: 2GB DDR3- eMMC: 16GBPorts- Ethernet: 1x RJ45 10/100/1000 Base-T- USB: 1x 2.0, 1x OTG- HDMI: 1- SD slot: Micro-SD (max 128GB)General- Power supply: 5 V - 2 A- Power consumption: ~5 W (HD decoding)- Dimensions (xyz): 9.8 x 2 x 9.8 cm- Weight: 122 g
