from **509,14 EUR**

Item no.: 389631  
shipping weight: 0.40 kg  
Manufacturer: Televes

### Product Description

Digital signage player based on the Nemesis set-top box, designed for 19" rack mounting. This is a high-resolution receiver that supports both IPTV and digital signage. It also includes a 16 GB microSD card for storing multimedia content, which is programmed for playback on the device using the Arantia DS management tool. The receiver also has a backup mechanism in the event of a problem with network access to the Arantia DS system, so that the receiver can continue to play the scheduled content. The Nemesis DS player includes an annual licence for access to the Arantia DS system when configured for remote operation in conjunction with the Televes Cloud digital signage platform. The housing includes a mounting plate for rack mounting.
