Product Description

RJ45 FTP Cat 6A connector, reusable and easy to connect as no special tools are required. The connector consists of 2 parts that interlock and give the cable the necessary hold. Blue plastic protective cover included in the scope of delivery. Supplied in boxes of 25 units. Highlights- Clamp connector: The connector consists of two parts that fit over the cable, clamping it and securing the anchoring of the pairs- No tools required: Crimping is done by applying pressure when closing the connector- Reusable: Can be removed and refitted without affecting or losing functionality- Multiple connection guaranteed without loss- Compatible with category 6A and lower standards- 180° cable entry- Connection table (A or B) on the plug- 50 micron gold-plated pins Good to know What is the RJ45? The RJ45 connector is most commonly used in structured wired networks. With its 8 connection cores, it can be used for both data networks (8 cores) and telephone networks (2 cores). As a rule, the D9RJ45 is used in networks that are compatible with the TIA/EIA-568-B standard.
