## EWZ - Professional tool for cable assembly

from **24,74 EUR**

Item no.: 389835  
shipping weight: 0.10 kg  
Manufacturer: Teledes

### Product Description

Professional cable assembly tool specially designed to reduce labour times thanks to an automated process for inserting the different pairs (after locating them) and cutting the remaining cable to make a high quality connection. This tool includes accessories that facilitate the insertion and extraction of cables and can be used for assembly in telephone headers as well as in data connectors and data patch panels. Highlights- A single action is all it takes to insert and cut the cable- Equipped with a cable extractor for cables routed in telephone headers, patch panels and data connectors- Carrying case included- Compatible with:- Telephone headers (Art.No. 2172 and 2173)- Data connector (Ref. 209901)- Data patch panels (Art. 533180 and 533181)
