from **19,66 EUR**

Item no.: 389836
shipping weight: 0.10 kg
Manufacturer: Televes

Product Description

RJ45 FTP Cat 6A socket, reusable and easy to connect as no special tools are required. The connector consists of 2 parts that interlock and give the cable the necessary hold. Extra small housing, particularly suitable for use in Keystone sockets. Supplied in a box of 100. Highlights- Clamp connector: The connector consists of two parts that fit over the cable, clamping it and securing the anchoring of the pairs- No tools required: Crimping is done by applying pressure when closing the connector- Compatible with Keystone junction box- Reusable: Can be removed and refitted without affecting or losing functionality- Multiple connection guaranteed without loss- Compatible with category 6A and lower standards- Compatible with Keystone junction boxes- 180° cable entry- Connection table (A or B) on the socket- 50 micron gold-plated pins- Extra small size: 14.5 x 16.1 x 35.1 mm Good to know What is the RJ45? The RJ45 connector is most commonly used in structured wired networks. With its 8 connection cores, it can be used for both data networks (8 cores) and telephone networks (2 cores). As a rule, the D9RJ45 is used in networks that are compatible with the TIA/EIA-568-B standard.
