MCE972 - Maclean metal detector, with discriminator, green

from **131,18 EUR**

Item no.: 382270
shipping weight: 1.70 kg
Manufacturer: Maclean Brackets

Product Description

Product description: A very useful device for anyone searching for metal objects. It enables you to detect small metal coins as well as steel beams in the floor or wall. The precision of the readings is guaranteed by a highly sensitive analogue display. The MCE972 detector has a handle and an adjustable probe arm length. The measurement results are read on a clear analogue display. The measurement results are also signalled acoustically. Technical data: - waterproof detector coil with a diameter of 220 mm - large LCD display (75x40 mm) - metal type detection - sensitivity adjustment (12 levels) - discriminator combined with tri-tone signalling - battery voltage indicator - headphone connection, 3.5 mm jack - operation in a static system (no movement - in all metal mode) - various operating modes: - all metal - discriminate - notch (selective discrimination) - auto notch - sensitivity 25cm (discrimination mode), 27cm (all metal mode) - depth display (12 segments) - pinpoint - pinpointing (in all metal mode) - manual regulation of ground influence - attenuation of ground influence - storage of settings - power supply - two 9V batteries (not included)
