## MCE992 - Maclean metal detector, with discriminator, pinpoint accuracy, yellow

from **107,77 EUR**

Item no.: 382286  
 shipping weight: 2.00 kg  
 Manufacturer: Maclean Brackets

### Product Description

Three-tone sound discrimination: a sound signal with three different tones (high, medium, low) assigned to different metal types. LCD display shows: -likely metal type -depth of target position -discrimination and cutting range (DISC and NOTCH) -sensitivity level (SENS) -battery charge status -numerical value of discrimination (DISC) and target (TARGET) Notch mode: By setting the notch range (ignore), the device skips metal debris and recognises more valuable objects. DISC: Discriminates the selected target. Super Slow Sweep Identification: Different types of metal are discriminated when the coil moves very slowly. Headphone jack: 3.5mm, for connecting headphones. Waterproof 10" search coil: enables searching in shallow water. Adjustable probe arm: allows the arm length to be adjusted to the user's height, ensuring comfortable working with the device. Power supply: two 9V alkaline batteries required (not included). PINPOINT location of the find/target with PP technology. Maclean Energy MCE992 has a forearm handle and adjustable probe arm length. The measurement results are shown on a clear LCD display and an acoustic signal sounds. To avoid attracting attention, simply connect headphones to the 3.5 mm jack socket. What makes our detector different from similar models on Allegro? Our detector is the only one with a large, modern 25 cm (10") coil, an adjustable forearm cuff, a modern electronic module built into a secure console made of high-quality material. In addition, our detector is coloured canary yellow, just like Garrett's products. The detector has a discrimination setting and an additional headphone connection. Thanks to the good balance of the device and the comfortable arm grip, the searcher's work becomes even more pleasant. Search depths (approximate): Small objects, e.g. coins: up to 22 cm. Medium objects, e.g. pistol: up to 40 cm. Large objects, e.g. knight's armour: up to 80 cm. Very large objects, e.g. armour: up to 160 cm. Very large objects, e.g. armour: up to 160 cm. Armour: up to 160 cm. Technical data: Metal detector with discriminator, LCD, 3.5 mm headphone connection. Power supply: 2 x 9V battery (not included). Motion detection modes: all metals, discriminator, notch. Sensitivity setting: 8 levels. Sensitivity: ± 22 cm (depending on the type of material). Signalling with different tones: 3 tones. Signal strength display: 8 segments. LCD: 47 x 76 mm. Pinpoint: yes. Volume control: yes. Low battery indicator: yes. Search coil size: Approx. 25 cm (10"). Operating temperature range: 0°C to 40°C. Storage temperature range: -20°C to 60°C. Operating frequency: 6.6 kHz.
