

Item no.: 389643

EKASFPPLUS2F - Module adapter SFP 10GbE 2 fibres (LC) SM 1310nm

from **123,08 EUR**

Item no.: 389643
shipping weight: 0.10 kg
Manufacturer: Teledesic

Product Description

The SFP+ (Small Form-Factor Pluggable) transceiver module for OLT512EVO and Ethernet switches, with LC/UPC connector extends the network up to 10 km through single-mode (SM) fibre optics. This high-performance media adapter can be connected to an SFP+ port of a compatible device to enable it to access an Ethernet signal via fibre optics. Highlights- SFP (Small Form Pluggable) module- 2 single-mode fibres (SM)- Operating data rate of 10 Gbps- Duplex LC connection- Up to 10 km transmission distance- Hot-pluggable Good to know What is an SFP? The Small Form-Factor Pluggable (SFP) devices are adapters that create an interface to allow access to an Ethernet signal via fibre optic cables. These devices can be connected to the inputs of various Ethernet and GPON devices and allow information to be sent/received by connecting to single-mode or multi-mode fibre optic cables or Ethernet cables. The advantages of using SFP modules include reduced space requirements, lower energy consumption and increased transmission distances.
