FSA3109 - VHF - Antenna 9 dB, K5-12, 10 elements

from **84,50 EUR**

Item no.: 390044
shipping weight: 1.20 kg
Manufacturer: Televés

Product Description

The Yagi antenna for VHF TV reception in an innovative design. Equipped with 4 directors mounted on two vertical grids in V-shape, 4 elements and a simple dipole. Individually packed. Highlights- Compared to other BIII antennas, the BIII V antenna has an innovative, eye-catching design that optimises the antenna length without sacrificing the electrical properties. The result is a compact antenna with outstanding performance and exceptional design- High VHF gain (Band III), with suppression of the adjacent bands- Can be mounted for horizontal and vertical polarisation- The clamp allows the antenna height to be adjusted on the vertical axis Good to know- Made of (rustproof) aluminium for a long service life and ABS plastic for good weather resistance- The mast mounting system is made of pressure-resistant stainless steel. The die-cast mast mounting system provides robust and stable strength against unfavourable weather conditions- Developed and manufactured in Europe, the antennas undergo the strictest quality controls- The terminal box contains a balun for impedance matching Specification- Frequency band: BIII- Frequency range MHz: 174 ... 230- Channels: 5 ... 12- Gain dBi: 9- Front-to-back ratio dB: > 15- Wind load (@130Km/h) N 49.9- Wind load (@150Km/h) N 68.6- For masts with Ø mm 20 ... 50
