H30-T - H30 - Protective bag

from **92,70 EUR**

Item no.: 389791
shipping weight: 0.10 kg
Manufacturer: Televes

Product Description

Waterproof neoprene and nylon case for H30 series meters. The design increases the protection of the meter and is equipped with a cover that prevents the screen from being scratched. The meter stays like new for longer. In addition, the bag has a height-adjustable strap with 4 attachment points, which makes it possible to hang the meter around the neck and operate it with one or both hands. Thanks to the special technique, the meter hangs and does not rotate, so it is not necessary to have a support point, which is very useful in complex installations. The device remains stable and perpendicular to the body without obstructing the direct view of the screen.
