## RB921UAGS-5SHPACD-NM - RouterBoard, 720MHz, 128MB RAM, 1 Gigabit-Port, 1 SFP

## Product Description

MikroTik Routerboard NetMETAL 5, RB921UAGS-5HPacD-NM

By supporting the 802.11ac wireless standard, the NetMETAL allows to use datarates of up to 1.3 Gbps (for the T models), 256-QAM modulation and 20/40/80 MHz channels. With its huge speed improvements, 802.11ac opens up new possibilities.

The NetMETAL is a completely new product in a waterproof enclosure. Its rugged design is made to withstand the toughest conditions, but at the same time it is easy to use and can be opened and closed with one hand. The solid aluminium enclosure also works as a reliable heatsink for its high output power radio. RB922 models have miniPCIe slot for another wireless card.
