from **2,89 EUR**

Item no.: 382321
shipping weight: 0.30 kg
Manufacturer: Maclean Brackets

Product Description

Solar LED lights are solar-powered devices that provide cost-effective, reliable, efficient and environmentally friendly outdoor lighting. They are ready for use immediately after installation and are virtually maintenance-free in operation. The lamps are equipped with an automatic system that switches the lighting on as soon as darkness falls. The MCE318 lamp is ideal for illuminating a driveway, path, garden, avenue, patio, etc. The lamp is easy to install - you don't need to lay any cables and can enjoy an elegant and modern light source. The lamp's light source is powered by a rechargeable battery that draws power from an in-built solar cell (panel) during the day. It converts sunlight into electrical energy, which is stored in the built-in battery. After dark, the stored electricity is used to power the lighting element, the LED.

Specification- Manufacturer: Maclean- Model: MCE318- Rated voltage: 2 V DC- Protection class: IP44- Rated power: 0.72 W- Luminous flux: 70 lm- Maximum service life: 15,000 hours- Rechargeable battery: NiMH 1.2V 600 mAh- Charging time: 8 hours- Lighting duration: 8 hours (after full charge)- Temperature range: -20°C to +35°C- Colour temperature: 4000K (neutral white)- Light source: LED 12 SMDSet contains- Solar garden spotlight LED Maclean MCE318- Instructions for use- Manufacturer's packagingFeatures- Integrated rechargeable battery and solar panel- 12 long-life LEDs- Light colour: Natural white (4000K)- Ideal for illuminating driveways, paths, gardens, avenues, patios- Built-in twilight sensor- Protection class: IP44- Weatherproof- Lighting duration when fully charged: 8 hours
