## Product Description

A set of 6 portable, cordless LED lights for practical use. A useful gadget for any home, office, basement or garage. Small size, low energy consumption, possibility of installation almost anywhere, attractive design - these are just some of the advantages. Thanks to the powerful and energy-saving light and the absence of any wires, the lamp becomes an ideal source of light, for example in a deep cupboard, in the kitchen or in the bedroom. The application possibilities are endless, it only depends on our imagination, ideal for lighting cabinets, niches, shelves, stairs, bars, etc.... The lamp comes with a remote control that not only switches the light on and off, but also allows you to change the brightness and switch the light on for 30 minutes. In addition, a practical solution - each individual light can be switched on or off by pressing the glass of the lamp.
