4G CAMPPRO VOLTE - 4G CampPro VoLTE

from **149,28 EUR**

Item no.: 392149
shipping weight: 0.80 kg
Manufacturer: ALFA Network

Product Description

4G CampPro VoLTE supports redundancy between 4G LTE and WiFi hotspot connections. With this redundancy function, offers a reliable and secure internet connection. Thanks to the detachable 4G LTE antenna, when the 4G signal is weak indoors, users can switch to a high-gain 4G LTE antenna outdoors for better internet access. It also has an RJ11 phone jack to support VoLT if your SIM card is VoLTE compatible. 4G Indoor Router- 4G LTE Category CAT 4- 4G LTE Frequency- Euro & SE Asia: B1/3/5/7/8/20/40- North America: B2/4/5/7/8/28/66- 4G LTE Downlink / Uplink 150 Mbps / 50 Mbps- SIM Slot Mini SIM Slot (2FF SIM)- WiFi 802.11n 2x2 MIMO- Ethernet 1x Ethernet port (only for connection to WiFi CPE outdoors)- LED Power, 4G Signal Strength, WiFi, Internet Status- Power, Reset, WPS buttons- Voice RJ11 (only works, if the SIM card is VoLTE-compatible)- Antenna connection- 2x SMA 4G LTE connection- 2x RP-SMA WiFi connection- Power source DC 12V / 1A- Dimensions 148 x 148 x 41 mm WiFi Outdoor CPE- WiFi standard 802.11n- WiFi frequency 2.4 GHz- Antenna connector type N male- Ethernet 1x Passive PoE Ethernet- Button 1x Reset button- Power source Passive 12-18V PoE- Power consumption 5W (max)- Dimensions 176 x Ø 38 mm- Waterproofness IP66
