

Item no.: 391888

EB121908 - PCIe to Gigabit Ethernet and USB 3.2 Gen1 HAT for Raspberry Pi 5, 3x USB 3.2 Gen

from **33,50 EUR**

Item no.: 391888

shipping weight: 0.10 kg

Manufacturer: Raspberry Pi Foundation

Product Description

PCIe to Gigabit Ethernet and USB 3.2 Gen1 HAT for Raspberry Pi 5, 3x USB 3.2 Gen1, 1x Gigabit Ethernet, driver-free, Plug And Play, Raspberry Pi 5 PCIe HAT 27541 PCIe to Gigabit Ethernet and USB 3.2 Gen1 HAT for Raspberry Pi 5 Highlights:- Enhanced connectivity: Adds three USB 3.2 Gen1 ports and one Gigabit Ethernet port to your Raspberry Pi 5.- High data transfer rates: The USB 3.2 Gen1 ports offer fast data transfers, ideal for external hard drives and other high-speed peripherals.- Fast network connection: The Gigabit Ethernet port enables stable and fast network connections.- Easy installation: Driver-free plug-and-play functionality means no additional software is required, making setup quick and hassle-free.- Compatibility: Specially designed for the Raspberry Pi 5, it fits perfectly and ensures seamless integration.- Versatile application: Ideal for projects that require high bandwidth and fast network connections, such as media servers, network storage or IoT devices. This PCIe HAT provides a powerful and versatile solution to significantly extend the functionality of your Raspberry Pi 5.
