from **32,71 EUR**

Item no.: 389725
shipping weight: 1.30 kg
Manufacturer: Televes

Product Description

Kit consisting of 4 castors and 16 screws for mounting on the 19" rack to facilitate its movement. The wheels allow the rack to be moved easily, a very advantageous factor for large racks that can reach a very high weight. The wheels also make the workspace more usable, as the rack can be moved as required. In addition, two of the castors supplied include brakes to prevent the rack from moving unintentionally. Highlights- Optimal use of space: The ability to move the rack means that more usable metres can be utilised- Easier work: The wheels allow the rack to be turned in any direction to make it easier to operate connections and devices- Safety: The brakes ensure that the cabinet stays in place to prevent possible accidents- Easy installation: rack mounting screws are included- Compatible with 600, 800 and 1000 mm deep racks Physical data- Net weight: 1.293 g- Gross weight: 1.293 g- Width: 55 mm- Height: 71 mm- Depth: 88 mm
