from 162,83 EUR

Item no.: 389842 shipping weight: 23.00 kg Manufacturer: Televes

Product Description

19" rack cabinet 6+2UThe 6+2U rack cabinet is designed to accommodate active and passive equipment that is visible from the outside and protected by a secure lockable steel construction. The cabinet is compatible with fibre optic, data cable or coaxial cable installations, allowing different technologies to be grouped in a single cabinet. The total capacity is or equipment. It has a reversible and removable front door with flexible fixing that facilitates working in the rack. The tempered glass door makes it possible to see the status of the equipment without opening the rack. The cabinet also has removable side doors with push buttons that allow access to the inside of the rack via the sides - an advantage when configuring rear connections. It is designed for wall or floor mounting. The cabinet also includes an L-bracket for wall mounting. The separate bracket makes installation easier, as it allows you to mark the drilling points for screwing to the wall and then place the rack on top. Dimensions (W x H x D): 600mm x 370mm x 450mm/Weight: 22.5kg/ltem no.

MSR196BDelivery method: Disassembled Product dataRef.no.: 533105EAN13:8424450210338Highlights-High load capacity and durability: made of steel with a coating based on polyester resins and lead-free pigments-Security: tempered glass, lockable front door with hinges-Laser labelling: numerical identification of each unit "HE"-Horizontal cable guides: Cable panels with 1 U at the top and bottom of the enclosure to guide cabling from one side to the other and facilitate connections-For the installation of active equipment such as headends, a ventilation panel can be installed. For the installation of active equipment such as headends, as headends, as headends, are equipped with natural ventilation, but in most cases this is not sufficient, as high temperatures can affect the performance of individual components. We therefore recommend the installation of a ventilation systems for racks and fans is described below.
