MSR1915-66 - Mounting cabinet 19", 15U, 600 x 600mm

from **281,27 EUR**

Item no.: 389673
shipping weight: 37.00 kg
Manufacturer: Televes

Product Description

The 15+2U rack cabinet is designed to house active and passive equipment that is visible from the outside and protected by a secure lockable steel construction. The cabinet is compatible with fibre optic, data cable or coaxial cable installations, allowing different technologies to be grouped in a single cabinet. The total capacity is 15U, with 8U and an additional 2U when using the top and bottom ends. The cabinet is equipped with depth-adjustable side profiles that allow the installation of different types of panels or equipment. It has a reversible and removable front door with flexible fixing, which makes it easier to work in the rack. The tempered glass door makes it possible to see the status of the equipment without opening the rack. The cabinet also has removable side doors with press studs that allow access to the inside of the rack via the sides - an advantage when configuring rear connections. It is designed for wall or floor mounting. In addition, the cabinet includes an L-bracket for wall mounting. The separate bracket makes installation easier, as it allows you to mark the drilling points for screwing to the wall and then place the rack on top. Dimensions (W x H x D): 600mm x 771mm x 600mm Weight: 37kg Highlights- High load capacity and durability: made of steel with a coating based on polyester resins and lead-free pigments- Security: tempered glass, lockable front door with hinges- Laser labelling: numerical identification of each unit "HE"- Horizontal cable guides: Cable panels with 1 U at the top and bottom of the enclosure to guide cabling from one side to the other and facilitate connections- For the installation of active equipment such as headends, a ventilation panel can be installed. A 120x120mm ventilation kit can be integrated for the installation of active equipment, such as headends Specification- Raster dimension in 19- Height mm 771- Width mm 600- Depth mm 600- Number of height units (U) 15- Material steel- Wall thickness mm 1.2- Colour black- Surface finish Electrostatic polyester powder- Number of doors 1- Rear door No- Max. Max. load capacity kg 60- Can be opened from the side Yes- Mounting type wall / floor- L-shaped profile rail design- Earthing No
