MVN437 - Multi-range amplifier 4 inputs 37 27 dB

from **116,63 EUR**

Item no.: 389678
shipping weight: 1.10 kg
Manufacturer: Televes

Product Description

Multi-range amplifier with 4 inputs (VHF-BIII/DAB-UHF-UHF) for MATV systems with separate amplification without intermodulation between the inputs. Highlights- Separate amplification: Increased output level without interference between the bands Attenuation control on each input (0 dB-20 dB)- Switchable gain (high/low) and high output level- Cast housing with very good shielding properties Features- "F" connections- LED output signal display- Test output (-30 dB)- Switchable remote power supply for most amplifiers or built-in amplifiers from the DATHD antenna series- Wall mounting possible
