MVNF344DD2 - Multi-range amplifier 3 inputs VHFVHFUHF

from **96,77 EUR**

Item no.: 389679
shipping weight: 0.70 kg
Manufacturer: Teledes

Product Description

Configurable multi-range amplifier for MATV systems with separate amplification without intermodulation between inputs. Equipped with 3 inputs: VHF-VHF-UHF. Equipped with an LTE700 filter and an LED signal indicator for immediate detection of network interference. Highlights- New compact design (103 mm x 103 mm x 50 mm)- LED indicator for signal and remote power supply- Switchable gain (high/low), and high output level- Two gain stages for the TV band- Very low power consumption thanks to efficient switching power supply- EasyF connection technology- Good shielding properties thanks to the cast housing Features- Test output (-30 dB)- Explanatory product stickers with circuit diagram and setting aids- ON/OFF switch for DC pass-through at VHF and UHF inputs for remote feeding of mast amplifiers or terr. Antennas with integrated BOSS amplifiers.- Wall mounting possible Wall mounting possible Physical data- Net weight: 635 g- Gross weight: 635 g
