

Item no.: 389741

SK100PLUS-T - Coaxial cable A 1.04.6 mm, triple shielded, aluminium 500 m drum

from **66,72 EUR**

Item no.: 389741
shipping weight: 0.60 kg
Manufacturer: Televes

Product Description

RG-6 coaxial cable with solid copper inner conductor for optimum digital transmission. 100 dB typ. Shielding rating, triple shielded and 60 % coverage. Low attenuation (31.5 dB @ 2150 MHz), suitable for long distances. Highlights- Full copper inner conductor and aluminium braiding- Class A+- EU fire protection class Eca Features- Colour: white, PVC jacket- 75 Ohm impedance- Available in coils of various lengths Good to know- Triple shielded class A+ coaxial cable Due to the triple shielding, these cables offer the highest level of protection against interference radiation, e.g. caused by LTE/4G signals. caused by LTE/4G signals. Fulfils shielding class A+ according to EN 50117:- At 5 MHz - 30 MHz => TI < 2.5 m?/m- At 30 MHz - 1000 MHz => SA > 95 dB- At 1000 MHz - 2000 MHz => SA > 85 dB- At 2000 MHz - 3000 MHz => SA > 75 dB The transfer impedance determines how effective the shielding is at low frequencies and the shielding attenuation is defined in the frequency range of 30 MHz-3000 MHz.
