

Item no.: 390085

## SFPGPON10 - SFP 10GB ETHERNET 2 FIBRES (OLT)

from **445,26 EUR**

Item no.: 390085  
shipping weight: 0.10 kg  
Manufacturer: Teledesic

### Product Description

SFP+ transceiver module For OLT equipment, 10GbESFP+ (Small Form-Factor Pluggable) transceiver module for OLT devices and Ethernet switches, with LC/UPC connector, offering the possibility to extend the network up to 10 km via 9/125  $\mu$ m single-mode (SM) fibre. This high-performance media adapter is connected to an SFP+ type port on an OLT device to make its inputs and outputs compatible with different network types. Highlights- SFP (Small Form Pluggable) module- 2 single-mode fibres (SM)- Duplex LC/UPC connector- Hot-pluggable Good to know What is an SFP? The Small Form-Factor Pluggable (SFP) devices are adapters that create an interface to allow access to an Ethernet signal via optical fibres. These devices can be connected to the inputs of various Ethernet and GPON devices, and allow information to be sent/received by connecting to single-mode or multi-mode fibre optic cables or Ethernet cables. The advantages of using SFP modules include reduced space requirements, lower energy consumption and increased transmission distances. When to use which SFP? Depending on the devices to which they are connected, the transmission speed or the type of cable used, several media converter options are available
