SE33TWIN-ST - 3-fold TWIN stub socket 2 x SATterr.

from **18,53 EUR**

Item no.: 389378
shipping weight: 0.10 kg
Manufacturer: Teledes

Product Description

Stub socket 3 connections: FM/TV-SAT1-SAT2 Stub socket with three connections and two inputs. Equipped with two F plugs: SAT1 for the satellite signal corresponding to input 1 (filtered) and SAT2 for the satellite signal corresponding to input 2 (full bandwidth 5-2400 MHz). The IEC connector is intended for radio (FM) and DVB-T/T2 from input 1. The lower part of the housing frame is open.

Highlights- Built-in separation filter: the SAT signal is filtered in the FM/TV IEC connection, while the terrestrial FM/TV signal is filtered in the satellite connection (SAT1).- Robot-controlled automated production/li>- High shielding- Excellent decoupling between the outputs

Features- Die-cast housing- DC feed-through from the SAT connection to the input- Compatible with coaxial cables with sheath diameters ranging from 5 to 6.9 mm (Ø 5...6.9 mm)

Good to know Teledes antenna sockets with plug-in technology

Advantages of the class A antenna sockets- The inner conductor is simply connected by pressing without the need for screws. The inner conductor can thus be detached several times- Can be used for inner conductor diameters from 0.65 mm to 1.2 mm and external cable diameters from 5 mm to 6.9 mm- Conical F connection for easy insertion of the inner conductor- Specially fixed claws to simplify installation (strong, stable and long). Very low installation depth.- Lockable hinged clamp remains in position even when installed horizontally!- The clamp is equipped with 3 serrated rows in 9mm for perfect fixing of the braid- Third keyhole for better fixing

Cleanly rounded edges to protect against injury- Complies with shielding class A

This product range also includes helpful printing on the housing:- CE mark- Numerical and logical designation of the antenna socket type- Representation of inputs and outputs- Dimensional information for stripping the cable
