SFP GPON C+EVO - Module adapter SFP GPON C (OLT512EVO)

from **210,22 EUR**

Item no.: 389731
shipping weight: 0.10 kg
Manufacturer: Teledesic

Product Description

SFP transceiver module For OLT512EVO, Class C+ GPON, 1 SC/UPC fibre Transceiver module SFP (Small Form-Factor Pluggable), Class C+ with SC/UPC connector. This device is intended for use with the OLT512EVO. It provides an interface that makes the inputs and outputs of the OLT compatible with different network types. Highlights- Support for OLT512EVO- SFP (Small Form Pluggable) module- Operating data rate of 1250 Mbps- SC/UPC connector- Hot-pluggable What is an SFP? The Small Form-Factor Pluggable (SFP) devices are adapters that create an interface to allow access to an Ethernet signal over fibre optics. These devices can be connected to the inputs of various Ethernet and GPON devices, and allow information to be sent/received by connecting to single-mode or multi-mode fibre optic cables or Ethernet cables. The advantages of using SFP modules include reduced space requirements, lower energy consumption and increased transmission distances. When to use which SFP? Depending on the devices to which they are connected, the transmission speed or the type of cable used, several media converter options are available.
