Item no.: 389557

UFB24RJ-A - Front panel 19" 1U with cable holder, 24xRJ45

from **29,21 EUR**

Item no.: 389557
shipping weight: 0.70 kg
Manufacturer: Televes

📄 Product Description

The device is designed to accommodate up to 24 RJ45 sockets and can be used as a connection point (data patch panel). Its use makes it possible to have a fixed data distribution network to which you can connect the signal it has with a simple reconnection on the panel. It includes a support for the cables that reduces the pull exerted by the weight on the connector and the probability of loosening when handling the cables and provides additional security by keeping the connectors flush against the panel, protecting them from shocks.Compatible with RJ45 sockets, with adapters for coaxial cables (ref. 546620) and also with Keystone modules for fibre optics (ref. 233230 and 233231).Highlights- Resistant: made of steel and coated with polyester resins and lead-free pigments- Identification of each connector by laser-engraved numbering- The tray ensures a sufficient bending radius for the cable, without which connection errors and damage can occur- 100% effective earthing thanks to the use of a double socket strip without painting- Black (RAL 9005) finish- Designed for 1U- Supplied with 4 screws, 4 nuts, 4 washers, 2 Velcro straps and 24 cable ties for 19" rack installation- Includes earthing cable- Double socket field for connectors with specific earthing, compatible with UTP and FTP connectorsTechnical data- Number of height units (U): 1- Pitch: in 19- Connector type: Data- Number of connections: 24- Earthing: Yes- Material: Steel- Colour: BlackPhysical data- Net weight: 640g- Gross weight: 830g- Width: 483mm- Height: 44mm- Depth: 92mm- Main product weight: 640g
