Product Description

Product description Increase the comfort in your home and let the automation work for you. Thanks to the Tapo T315 smart thermometer, you can read the current temperature and humidity on the 2.7" E-Ink LCD display at any time. 2x AAA/LR03 batteries with a lifespan of up to 2 years power the thermometer, so you can indulge in smart living without having to lay new cables in the house or change the existing wiring. The thermometer communicates wirelessly at a frequency of 868 MHz with a central unit, which is necessary for the thermometer to function correctly. It measures temperatures from 0 to 50°C with a maximum deviation of 0.3°C and humidity from 0 to 99% with a deviation of 3%.
