from **2,19 EUR**

Item no.: 382267
shipping weight: 0.10 kg
Manufacturer: Maclean Brackets

Product Description

Product description: Maclean's latest series of optical cables is an absolute novelty on the market. No more using additional adapters thanks to the swivel ends of the cable, which allows you to connect the cable to both a device equipped with a TOSLINK connector as well as a Mini-TOSLINK connector. Maclean cables provide lossless signal transmission for the purest and most realistic sound effects. The cable is especially recommended for high-quality digital connections - whether it be a satellite receiver, blu-ray player, PS3 console or other modern entertainment equipment. Specifications: - Swivel ends to eliminate the need for additional adapters- Cable made of the highest quality bend-resistant fiber optic cable- The metal plugs have been plated with 24 karat gold for the best contact with the sockets in the equipment- Provides lossless transmission of uncompressed signal.- Highly precise and robust manufacturing- 99.99% immune to EMI interference- Meets RoHS and CE standards
