### Product Description

With the new MCE993 metal detector from Maclean Energy, you can look for coins, relics, jewelry, gold and silver everywhere. The detector is versatile and easy to use - now the adventure can go! Thanks to the monitor, you can now determine the apparent metal type of the found material. The adjustable DISC function determines whether the detector will distinguish between ferrous and non-ferrous objects. The NOTCH function prevents the scrap metal from being scanned and ignored. With the built-in headphone jack, you can also connect your headphones to the detector to make your searches even more precise! Maclean have a lot of satisfied customers at the market. The brand is known world-wide for its quality, innovative strength, service and reliability of the products. Maclean is an industry leader in Europe. - LCD Display- Three-tone signal discrimination- Detection of metal types- Adjustable NOTCH function- Adjustable DISC function- Headphone Jack 3.5mm- Adjustable volume- Waterproof search coil 240mm- Adjustable stem length- Battery: Alkaline 9V (not included)- LCD monitor- Three-tone signal discrimination- Detection of: metal types- Headphone Jack: 3.5mm- Waterproof search coil: 240mm
