

Item no.: 382171

MCE996 - Maclean metal detector, with discriminator, yellow, Trapper

from **77,75 EUR**

Item no.: 382171
shipping weight: 1.60 kg
Manufacturer: Maclean Brackets

Product Description

A very useful device for any metal detector. It allows you to detect small metal coins as well as steel beams in the ground or in walls. Precision is guaranteed by a highly sensitive electronic display on the LCD screen. The detector is equipped with an arm holder and an adjustable probe arm length. The measurement results are read on a clear LCD display, and an acoustic signal is also helpful. To avoid attracting attention, simply connect the headphones to the 3.5 mm jack socket. WATERPROOF 9.5-inch PROBE - allows you to use the detector even if you have to put the probe in shallow water. The concentric probe allows you to cover a larger portion of the surface and is more effective than smaller coils! LCD display shows:- probable metal type- target depth- discrimination range (DISC)- sensitivity level (SENS)- volume- battery charge level- digital target identification Specification- Manufacturer: Maclean- Model: MCE996 Trapper- Distinguishing metals (DISC)- Adjustable sensitivity (SENS)- LCD screen with backlight- Audible target identification- Four search modes- 3.5 mm headphone jack- 9.5' waterproof coil- Detector height adjustment- Power supply: 2x 9V battery (not included) Set includes- Maclean metal detector, with discriminator, yellow, MCE996 Trapper- User manual- Manufacturer's packaging Four search modes:- DISCRIMINATION - the ability to distinguish types of metal, which determines whether the detector can distinguish types of ferrous alloys from non-ferrous metals- ALL METAL - is used to search for all types of metal objects. In this mode, the device has an automatic ground balance function- MEMORY - a mode for searching for a stored metal type- JEWELLRY - mode optimised for searching for jewellery such as rings, bracelets or necklaces, jewellery such as rings, bracelets or necklaces Features- Differentiation between metal types- Adjustable sensitivity (SENS)- Low battery indicator- Operation with two 9 V alkaline batteries- Waterproof search coil- 3 sound tones for different metal types- Four search modes- Backlight- 3.5 mm headphone output for connecting headphones
