Product Description

This soft mouse pad by Delock is particularly suitable for everyday use of a computer mouse. With its rubberised underside, it is non-slip and can be used on various surfaces. The mouse pad by Delock is particularly characterised by its special surface coating, the so-called glass coating, which makes the surface very smooth. This allows the mouse to glide much faster and more accurately than on conventional mouse pads. Technical data- Flexible soft mouse pad- Very smooth surface (glass coating)- Supports higher speed and accuracy of mouse movement- Rubberised underside- Dimensions (LxWxH): approx. 220 x 180 x 3 mm- Colour: greige
