

Item no.: 394879

Delock fibre optic cable CS male to LC duplex UPC singlemode G657A2 OS2 Uniboot 0,5

from **35,66 EUR**

Item no.: 394879
shipping weight: 0.10 kg
Manufacturer: Delock

Product Description

Description This fibre optic cable by Delock is suitable for connecting transceivers with CS interface and for cabling the fibre optic network in data centres. CS connector The CS (Connector Senko) connector belongs to the Very Small Form Factor (VSFF) connectors and has a smaller form factor than comparable LC duplex connectors. The connector is particularly suitable for applications with high packing density. The push-pull tab on the connector makes it easy to plug and unplug. Technical data Connectors: 1 x CS plug 1 x LC Duplex- Singlemode G657A2 / OS2 cable- Fibre: 9/125 µm- Zirconium ceramic ferrule with protective cap- Uniboot connector- Polarity A/B can be changed without tools- Push pull tab- Cable diameter: approx. 2 mm- Insertion loss < 0.2 dB- Return loss > 55 dB- Operating temperature: -20 °C ~ 70 °C- LSZH (halogen-free)- Colour: yellow- Length incl. connections: approx. 0.5 m Package contents- Fibre optic cable
