Product Description

Description This DisplayPort switch by Delock is a manual bidirectional switch for connecting different devices with DisplayPort connection, which offers two different application possibilities. Function 1 Up to 2 devices can be connected to one monitor, TV or projector. The device to be displayed on the screen can be selected at the touch of a button. Function 2 A DisplayPort device can be connected to up to 2 screens. The screen on which the signal is displayed can be selected at the touch of a button. Simultaneous output to multiple screens is not possible. Note The switch can be supplied with power via the DisplayPort connector. If a device does not support power supply via DisplayPort, the switch can be supplied with power via the USB-C™ socket. Technical data Connections: Function 1 Input: 2 x DisplayPort socket Output: 1 x DisplayPort plug Function 2 Input: 1 x DisplayPort plug Output: 2 x DisplayPort socket - 1 x USB Type-C™ socket (optional for power supply) - 1 x switch button with LED indicators for 1 or 2 - DisplayPort 1.4 specification - Supports HDR Resolution up to: 7680 x 4320 @ 30 Hz 3840 x 2160 @ 144 Hz (depending on system and connected hardware) - Plastic housing - Colour: black - Dimensions (LxWxH): approx. 55 x 55 x 15 mm - Cable length without connections: approx. 50 cm System requirements - One free DisplayPort socket - DisplayPort cable Package contents - Bidirectional switch - Operating instructions
