90161 - Delock PCI Express x4 card to 1 x external USB Type-C 10 Gbps socket 1 x external

from **88,07 EUR**

Item no.: 394983
shipping weight: 0.20 kg
Manufacturer: Delock

Product Description

The PCI Express card by Delock expands the PC by two external USB-C™ ports. Various USB devices, such as USB sticks, card readers, external housings, etc., can be connected. Video output on the USB-C™ connection
The DisplayPort connection of the PCI Express card can be connected to a DisplayPort output of a graphics card on the mainboard using the enclosed cable. This makes a USB-C™ port DP Alt Mode capable. A monitor can then be connected to this port to transmit video and audio signals. The maximum resolution of the output depends on the input signal. Technical data
Connections: external: 1 x USB 10 Gbps USB Type-C™ socket 1 x USB 10 Gbps USB Type-C™ socket (DP Alt Mode capable) 1 x DisplayPort socket (for DP Alt Mode function) internal: 1 x PCI Express x4 (2-lane), V3.0- Chipset: Asmedia ASM3142- Data transfer rate up to 10 Gbps- Resolution up to 7680 x 4320 @ 60 Hz (depending on system and connected hardware)- Power supply via PCI Express interface- Electrical power per port: max. 7.5 Watt (5 V / 1.5 A)- Supports eXtensible Host Controller Interface (xHCI) specification 1.1 System requirements- Linux Kernel 5.15 or higher- Windows 10/10-64/11- PC with a free PCI Express x4 / x8 / x16 / x32 slot- Graphics card with DisplayPort output (for DP Alt Mode support) Package contents- PCI Express card- DisplayPort cable, length approx. 35 cm- Low Profile bezel- User manual
