### Product Description

The IEC adapter by Delock is a high-quality solution for demanding power connections. This adapter complies with the IEC 60320 standard and offers reliable power transmission for IEC devices. The 3-pin assignment and the maximum current rating of 10 A make this adapter versatile. The black colouring not only gives it a professional appearance, but also allows for unobtrusive integration into various environments. Delock's proven quality stands for durability and performance. The Delock adapter is the optimal choice for optimising power connections and ensuring a reliable power supply. Technical data Connections: 1 x 3 pin IEC 60320 C14 plug / 1 x 3 pin IEC 60320 C13 socket - Current: max. 10 A - Voltage: max. 250 V - Colour: black - Dimensions (LxWxH): approx. 69.8 x 28.2 x 20.2 mm Package contents - Adapter
