from **2,17 EUR**

Item no.: 394928  
shipping weight: 0.10 kg  
Manufacturer: Delock

### Product Description

The IEC adapter by Delock is a high-quality solution for demanding power connections. This adapter complies with the IEC 60320 standard and offers reliable power transmission for IEC devices. It is suitable, for example, for connecting IEC cables to a games console. The 3-pin assignment and the maximum current of 2.5 A make this adapter versatile. The black colouring not only gives it a professional appearance, but also allows for discreet integration into various environments. Delock's proven quality stands for durability and performance. The Delock adapter is the ideal choice for optimising power connections and ensuring a reliable power supply. Technical data: Connections: 1 x 3 pin IEC 60320 C14 male / 1 x 2 pin IEC 60320 C7 female - Current: max. 2.5 A - Voltage: max. 250 V - Colour: black - Dimensions (LxWxH): approx. 67.3 x 28.2 x 20.2 mm Package contents: Adapter
