Product Description

Description This card reader by Delock can be used for reading and writing XQD and SD memory cards. The card reader is connected to a PC or notebook via the USB Type-C™ interface. Integrated USB port Thanks to the integrated USB Type-A port, USB devices can still be used when the card reader is connected to the PC. Small, stable and handy The Delock card reader is particularly suitable for mobile use due to its small dimensions and stable housing. It can be easily stowed in a bag together with a notebook or tablet and can be used directly when needed.
