Product Description

Description This mechanical USB keyboard by Delock with various multimedia and WASD keys is particularly suitable for use in gaming. Among other things, the locking of the Windows key helps to ensure a smooth gaming experience. The Delock keyboard can also be used perfectly for office applications. Luminous gaming experience and anti-ghosting keys With its integrated RGB lighting, the keyboard offers up to 12 different colour schemes, which can be set via a single key. Furthermore, 25 anti-ghosting keys ensure that even the simultaneous pressing of various keys is correctly detected. This ensures complex commands and perfect gameplay.
